- 

## Professional Experience

### Senior Front-end Developer

#### Abarcos Technologies Limited - Abuja, Nigeria

##### April 2024 - Present

- Lead the architecture and implementation of scalable front-end solutions for enterprise-level web applications using React and TypeScript.
- Mentor and guide a team of junior developers, conducting code reviews and promoting best practices to enhance team performance and code quality.
- Collaborate with UI/UX designers and product managers to translate complex requirements and design mockups into fully functional, high-fidelity user interfaces.
- Drive performance optimization initiatives, resulting in a significant reduction in page load times and an improved overall user experience.
- Establish and maintain a reusable component library, streamlining development workflows and ensuring design consistency across all digital products.

## **Junior Web Developer**

**uLesson - Abuja, Nigeria**

**October 2023 - March 2024**

- Developed and maintained responsive, user-friendly web applications using HTML, CSS, JavaScript, and other front-end technologies.
- Collaborated with senior developers to design and implement new features and functionalities according to project requirements.
- Assisted in troubleshooting and debugging issues to ensure smooth functioning of web applications across various browsers and devices.
- Participated in code reviews to improve code quality and maintainability while adhering to best practices and industry standards.
- Contributed to the optimization of web applications for performance and scalability.

## **Web Developer (Intern)**

**uLesson - Abuja, Nigeria**

**April 2023 - October 2023**

- Assisted in the development and maintenance of uLesson's web platform, contributing to front-end and back-end tasks under senior guidance.
- Implemented responsive designs using HTML, CSS, and JavaScript frameworks, ensuring cross-browser compatibility.
- Participated in sprint planning and agile development processes, collaborating with team members to meet project deadlines.
- Supported the integration of third-party APIs and services, such as payment gateways and analytics tools.
- Conducted testing and quality assurance procedures to identify and address bugs and performance issues.
